

VICTORINOX -curved boning knife- flexible

Size

from 12 cm

Description

Since 1884, quality, functionality, innovation and design excellence is the highest priority for Victorinox. Victorinox has an efficient quality management system that is focussed on the production of professional knives. They guarantee that only martensitic stainless steels and plastics, are used in production. Laboratories are equipped with modern testing equipment. Victorinox Professional Knives stand out due to their high-quality, durable materials and ergonomic design, as well as being carefully developed for their intended purpose. Thanks to the broad product range, every professional will find the right knife for his or her specific requirements.
